

Good practice in education and training
on occupational safety and health:

From School to Work

Paul Gordon
On behalf of the British Safety Council,
London, UK

The European Agency for Occupational Safety and Health estimates that young people aged 16-24 are 50% more likely to be injured at work. In UK, a young person is seriously injured at work every 40 minutes

The British Safety Council has trained more than 120,000 young people in basic workplace safety and campaigns to raise young peoples' awareness

More than 120,000 free qualifications

YOUNG WORKERS ZONE

for EMPLOYERS

As an employer you are ultimately responsible for the health & safety of your employees.

How do I ensure I'm doing all I can for our young workers?

Where can I find reliable information?

It's a huge responsibility... where do I start?

Promote and maintain a safe workplace. Here's what you can do to educate yourself and put your knowledge into practice on the job site. Help protect your young workers.
