Students under this modular
curricula are able to take
necessary precautions for
“ the worker health and safety”

A close-up photograph of a hand holding a yellow flower. The hand is positioned in the lower center of the frame, with fingers gently gripping the stem. The flower is bright yellow with several petals, and its green stem is visible. The background is a blurred, light-colored surface, possibly a wall or a window. Two yellow text boxes are overlaid on the image: one at the top center and one on the right side.
