

**Task Force 3:
Resilience of networking**

Mapping exercise

The European Network Education and Training in Occupational Safety and Health (ENETOSH) is an inclusive cross-disciplinary network, covering the research, policy, and practice communities.

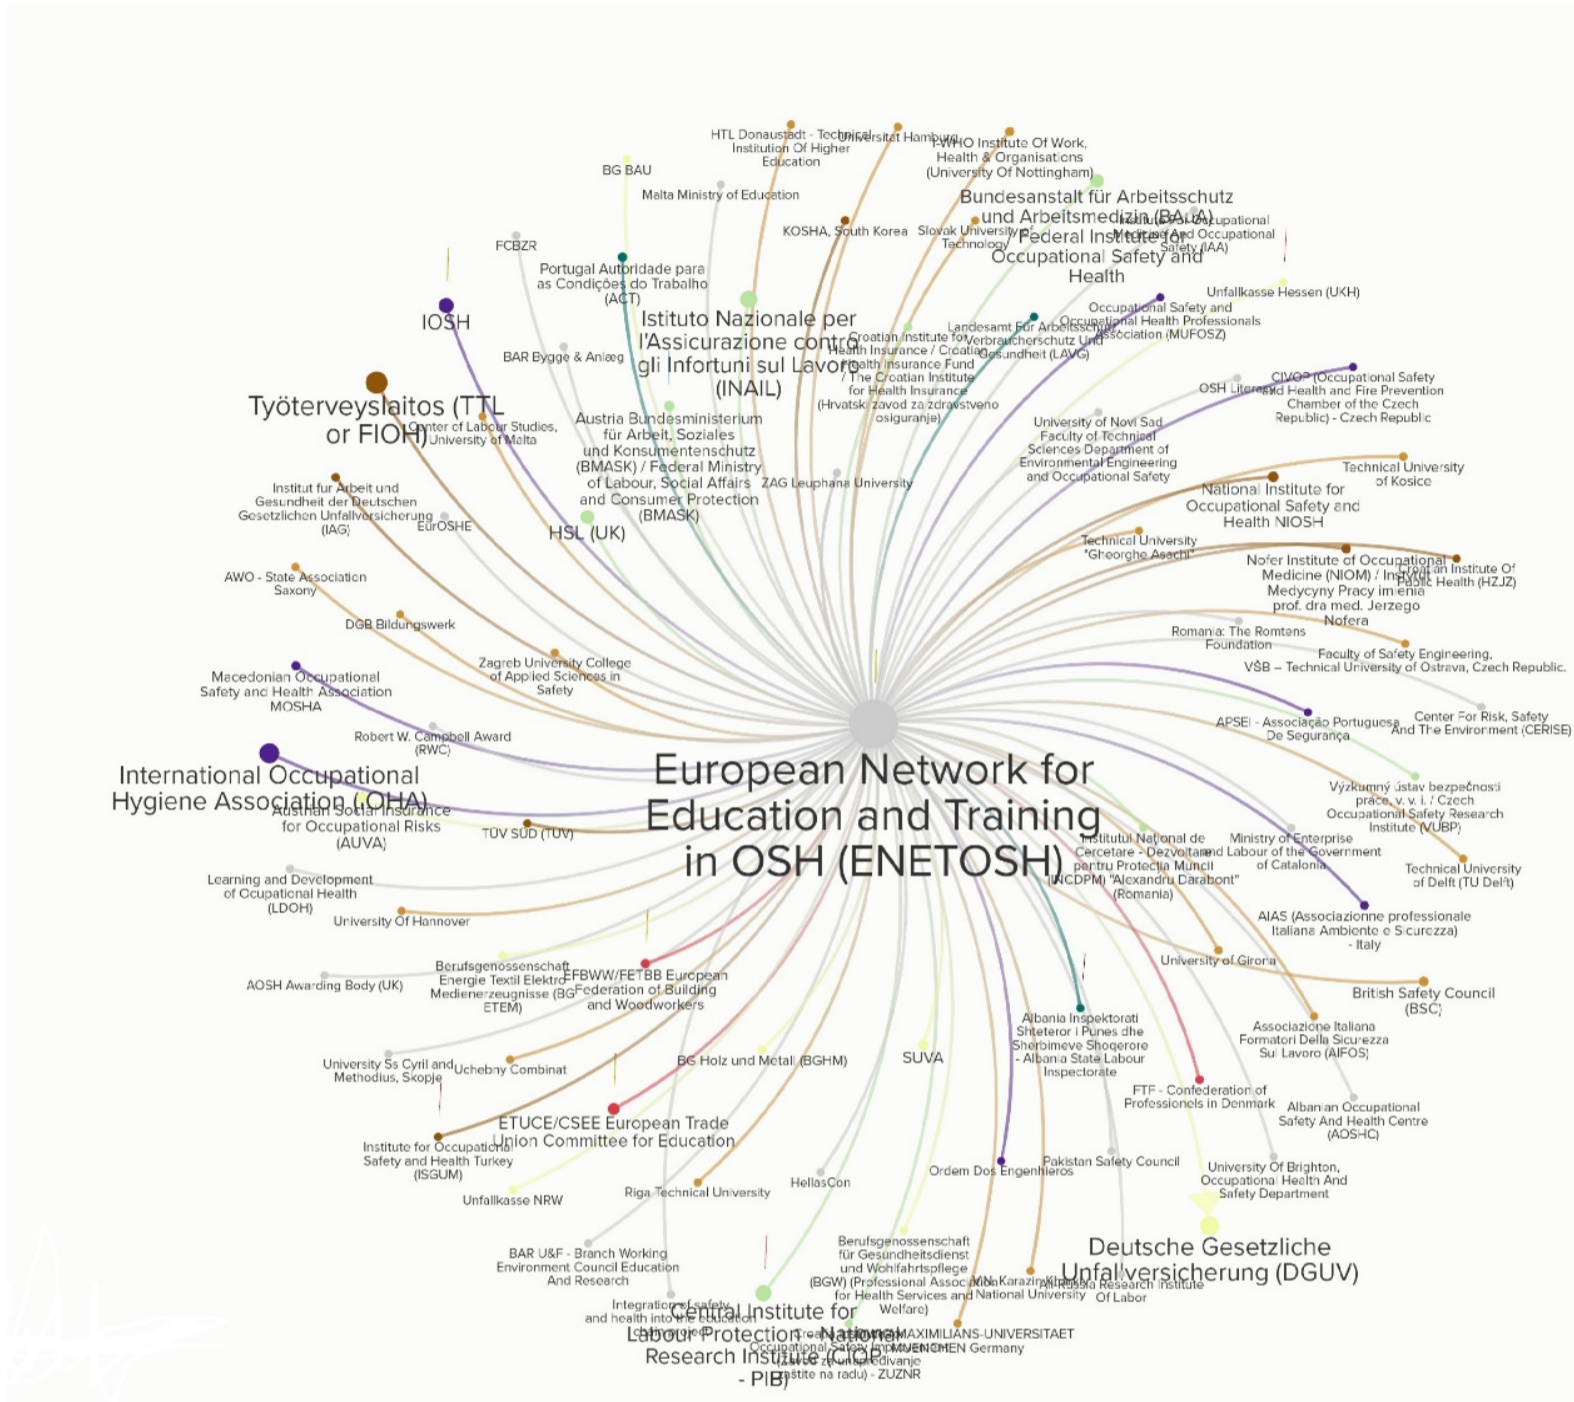

Image 1 shows ENETOSH members colour-coded by organisation type. Purple is for professional organisations, green for OSH institutions, Brown for education bodies, yellow for social insurance bodies, red for worker organisations.

Image 2 shows ENETOSH members with their immediate connections and how ENETOSH has the reach into many different clusters, crossing boundaries as it communicates on mainstreaming OSH into education.
